

Ready-to-go and **easy** to configure.

Everything you need for a **productive workday** at your fingertips.

- Connect your entire workforce, no matter where they are
- Share compelling stories and important news effortlessly
- One source of truth, across all your devices
- Boost collaboration and enhance productivity

What do **customers** say about Involv?

“

We chose Involv intranet to be our software partner following a rigorous procurement process. Involv have been by our side all the way and have helped us deliver our vision for a simple, smart and seamless user experience across our digital workplace.

**Martin Stubbs-Partridge**  
Internal communications NatureScot

“

The dream for me is our intranet will reduce reliance on emails. Staff get sent hundreds of emails a week and they don't have time to read them. When they're on the frontline, dealing with people in such serious situations, they need somewhere that they can click, read at-a-glance, then leave. With Involv they can do that.

**Keara Donnachie**  
Communication and Engagement Manager Blue Triangle
